Dear Kateryna,

On behalf on the Embassy of Ukraine in Japan, I would like to personally thank you for your recent contribution of time, efforts and professional skills into coordination of voluntary support of the Embassy's activities by your students. Such mentorship and guidance is very valuable for young Ukrainian people in these times of hardships.

We highly appreciate the fact that Ukrainian students in Japan actively participate in local and governmental efforts in order to convey the true message of Ukraine to the people of Japan. I hope that the experience and knowledge they have earned through this volunteering will become a valuable asset for their future careers.

Sincerely,
